

COLOR EXPLORATION

Four modern palettes – same UI

Same layout and structure, four directions away from the clay/Claude look. Each tile shows the surfaces that matter: greeting, an agent message, a step card, the activity strip, status chips, suggestions and the composer. Tell me which one (or which accent) feels right and I'll apply it across all four screens.

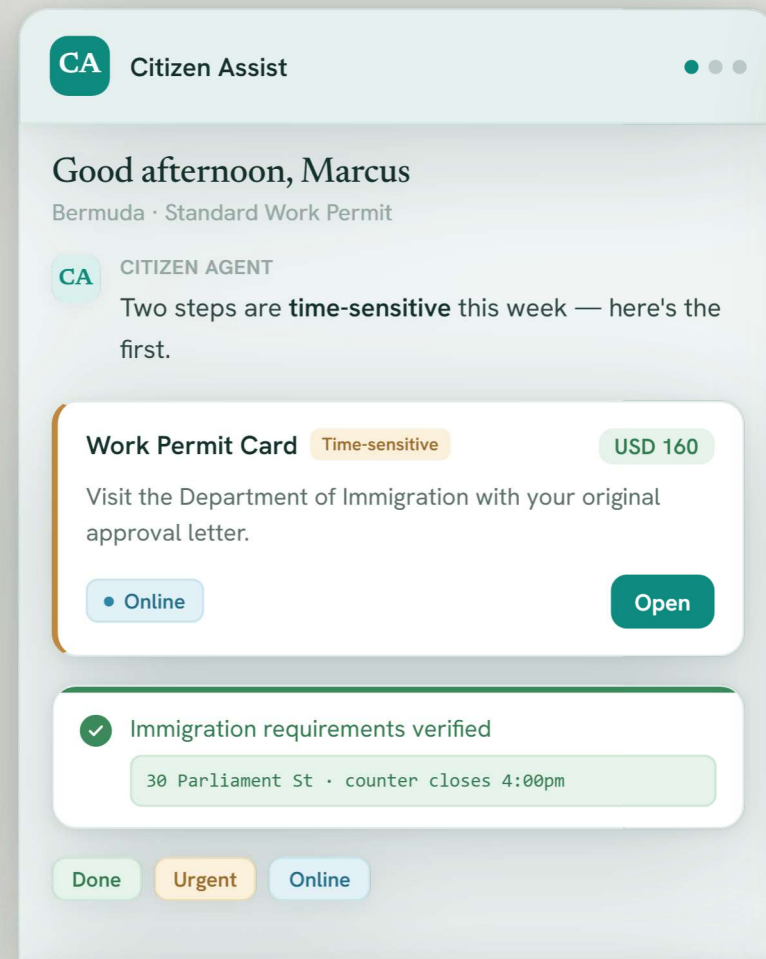

A · Indigo Slate

Cool, crisp, software-modern

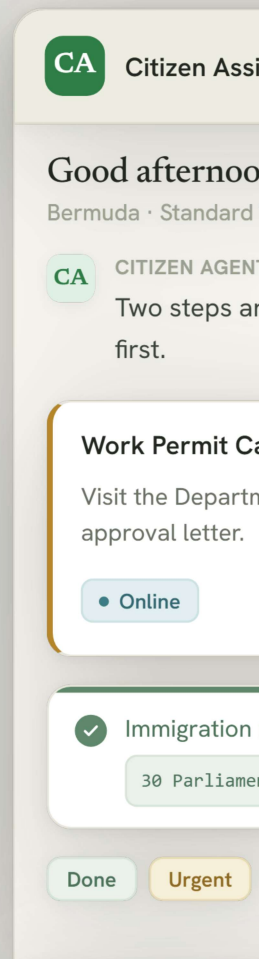

B · Bermuda Teal

Island-rooted, calm, official

C · Forest & Sand

Warm-neutral, grounded
